Hi Kelley

Here are updated materials for Tom's discussion with the Administrator on the 29th. Attached is an updated version of the IRIS multi-year agenda as well as 2-pager briefing sheet. A couple of sentences were added to this version in order to emphasize that IRIS assessments are complex and cover the highest priority chemicals to the agency. This could help Tom if he wants to talk with Gina about other types of assessment that are not so resource intensive but address chemical assessment needs that are still important to the Agency. Please let me know if you need any additional information.

Thanks

Norm
